

GIVE & TAKE
 Besides *living* individually independent lives, do we each *exist* in varying collective engagements, systems of thought & manmade legal laws (all of which only exist, not live) using the method of engagement called GIVE & TAKE.

BE-DO-HAVE
 Besides *existing* in and with collectives, we each all *live* unique individual lives in accordance with Natural Law principally using BE-DO-HAVE as formula of engagement.

- One's Being holds one's integrity.
- BE is not factored into GIVE&TAKE.
- GIVE&TAKE is DO & DO, conditional both ways.
- GIVE&TAKE is similar as DO-HAVE without BE.
- Supply/demand, input/output, import/export all mean GIVE&TAKE.
- Conditional GIVE&TAKE involves terms, limits, fees, taxes, compromises, fear & control, ensuing conflict in scarcity misusing nature's abundant resources.
- Collectives only GIVE&TAKE. Only living Beings BE-DO-HAVE, not collectives, as only a Being declares "I am", and a collective simply does not.
- GIVE&TAKE inadvertently makes us believe we must GIVE&TAKE to BE. A mislead spread as a need, and fear feeds on needs.
- Reason-driven GIVE&TAKE and purpose-driven DO & HAVE are similar but different due to the natural fact that you always *have* more than you can ever *take*.
- GIVE&TAKE is a machine formula, turning us into both givers and takers.
- GIVE&TAKE is an incomplete formula of engagement for Beings to live by.
- BE-DO-HAVE is a complete formula of engagement for Beings to live by.
